**NOTICE OF PLAINTIFF'S
SUBMISSION OF
EVIDENCE IN SUPPORT
OF INQUEST FOR
DAMAGES**

Pursuant to the Court's Order dated July 7, 2008, Plaintiff, Ace American Insurance Company, submits its evidence of damages in support of the Inquest Hearing for the above captioned civil action. Plaintiff attaches the Affidavit of Judy Goebel in Support of Inquest for Damages with exhibits attached hereto. Plaintiff requests judgment in the amount of \$52,223.47, as shown by the annexed exhibits, which is justly due and owing, no part of which has been paid, although duly demanded.

**AFFIDAVIT OF JUDY
GOEBEL IN SUPPORT OF
INQUEST FOR DAMAGES**

STATE OF NEW YORK)
) ss:
COUNTY OF ~~MASSACHUSETTS~~)

JUDY GOEBEL, being duly sworn, deposes and says:

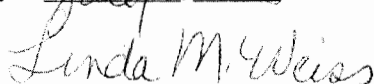

1. I am a recovery specialist for Recovery Services International, Inc. who is handling the recovery of this subrogated claim for Ace American Insurance Company. As such, I am familiar with the facts and circumstances in the above titled action.
2. I make this affidavit pursuant to United States Magistrate Judge Andrew Peck's Order for Plaintiff's to provide evidence of damages sustained in this action.
3. This is an action to recover damages sustained to Mr. Sidney Friedman's vessel as a result of improper winterization and improper engine repair.
4. Exhibit 1 is a survey report by David Young. Mr. Young indicates that the costs of repairs of \$50,339.48 were fair and reasonable. The itemized repair orders and invoices are also attached.
5. Exhibit 2 is the invoice of \$1,524.89 paid for the services of Mr. Young.

6. Exhibit 3 represents the Ace itemization of the loss. After depreciation of parts, Ace agreed on a covered loss of \$46,065.45 with a deductible of \$5,500.
7. Exhibit 4 represents the payment details of Ace Insurance Company. Ace issued payment to Mr. Friedman of \$40,565.45 and \$1,524.89 for a total of \$42,090.34.
8. Exhibit 5 represents page 10 of the Ace Insurance Policy with the assured. Under "Our Right to Recover" Ace has the right to pursue this claim in subrogation and to pursue the deductible on behalf of the assured.
9. The total amount Ace claims is owed by defendants is \$47,590.34 plus interest and costs.
10. The claim occurred in July 2007. Ace requests interest at 9% or \$4,283.13.
11. Ace also requests costs incurred of the filing fee of \$350.00 and the cost of service.
12. Ace Insurance requests Final Judgment be made in the amount of \$52,223.47.

WHEREFORE, Plaintiff requests judgment in the sum amount of \$52,223.47, as shown by the annexed Exhibits, which is justly due and owing, and no part of which has been paid, although duly demanded.

Dated : 7/14/08

RE: Friedman
CLAIM NO.: 796 S 171402-0

REPORT - Page 1 of 9

SCOPE OF SURVEY:

At the request of Mike Burns of ACE Rec. Marine Claims, the undersigned surveyed the vessel described on the cover sheet of this report. The purpose of this survey was to determine the cause, nature and extent of damages.

Inspection of the vessel was conducted while it was afloat at the Lawrence Yacht Club. I was permitted access to the vessel by Mr. Dean Friedman who remained in attendance throughout the damage inspection. At the time of the inspection the repairs to the claimed damages had been completed. However Mr. Friedman had retained the majority of the parts that had been affected by the claimed loss incident. These were located at his home where the undersigned traveled for the purpose of inspection and retention on the date of the inspection.

Identification was made to the vessel. The hull ID numbers were recorded and appear on the cover sheet of this report. They agree with the hull ID numbers recorded on the policy's declarations page provided with the damage survey assignment. (See digital photos 1 through 4)

FOUND ON INSPECTION:

Inspection of the vessel focused primarily on the claimed damages relating to the recent claimed loss, its cause and extent. No other damages relating to the claimed loss, other than those mentioned below, were found on inspection or investigation.

FOUND:

- 1) Upon receiving the damage survey assignment the undersigned contacted Mr. Dean Friedman (the insured's son acting as his representative) via telephone on 9-5-07 and questioned him about the circumstances of the claimed loss incident. He reiterated the circumstances of his claim as written in the Mr. Sydney Friedman letter of 8-28-07 that was provided by you with the damage survey

RE: Friedman
CLAIM NO.: 796 S 171402-0

REPORT - Page 2 of 9

assignment. He told me he had retained the services of Mr. Donald Rave (attorney) for the purpose of recovering any losses his father has suffered pertaining to the claimed loss on the vessel. I made arrangements with him to meet on 9-7-07 to inspect the vessel, the removed parts and collect the necessary documents relating to his claim.

- 2) On 9-7-07 the undersigned initially met with Mr. Dean Friedman at his place of business OP Sales, 4217 Austin Boulevard, Island Park, NY. At this time he signed an authorization for testing. A copy of this authorization is also attached to this report. Mr. Friedman also provided the undersigned with a photo disc of photos he had taken of the damages to the vessel and a folder containing the following documents:

- 6 Pages Atlantic DDA repair order customer summary
- 6 Pages Atlantic DDA Invoice
- 5 Pages Sydney Friedman letter 8-28-07
- 1 Page Island Canvas Invoice dated 7-07
- 2 Pages Jeffstar Marine Services estimate 1-5-07 #2085
- 1 Page paid receipt for \$576.00 and \$4,000.00
- 1 Page Jeffstar Marine Services estimate 1-16-07 #2073
- 1 Page Ricker telephone numbers
- 5 Pages Jeffstar Marine Services estimate 1-16-07 #2073

- 1 page letter to Dominic Ialici 7-16-07
- 1 Page certified mail receipt 7-16-07
- 1 Page Delaware Turnpike toll receipts
- 1 Page Maryland Transportation toll receipts
- 1 Page New Jersey Turnpike toll receipts
- 8 Pages Photos

Copies of these documents were forwarded to you via US mail.

After reviewing the documents I questioned Mr. Friedman as to why he chose Atlantic Detroit Diesel to perform the repairs. He told me he chose Atlantic because he knew they were a DDA factory dealership and repairer and could guarantee their repairs.

- 3) On 9-7-07 the undersigned then traveled to Mr. Dean Friedman's home at 61 Ulster Avenue, Atlantic Beach, NY 11509 for the purpose of examining the damaged parts removed from the damaged starboard engine of the vessel.
- 4) Mr. Friedman had retained the exhaust manifolds, cylinder heads, exhaust cross over pipe, cylinder liners, inter cooler, and pistons. Inspection of the exhaust manifolds found both the port and starboard manifolds cracked through the cast iron closed cooling side outward toward the exterior outer edges. The crack ran nearly along the entire edge of the manifolds lower corner edges. The cracking

RE: Friedman
CLAIM NO.: 796 S 171402-0

REPORT - Page 4 of 9

on both manifolds appeared typical as cracking caused by internal liquid freeze damage. (See digital photos 5 through 8)

- 5) Inspection of the cast iron exhaust manifold cross over pipe found it cracked through the closed cooling side outward toward the exterior edges in the area of the center of the pipe perpendicular to the length of the pipe. This crack also appeared to be caused by the expansion of frozen liquid in the closed cooling jacketed side of the pipe. (See digital photos 9 and 10)
- 6) Inspection of the inter cooler found its normally rectangular shape distorted and bent outward. This inter cooler when in service is normally filled with liquid from the closed coolant system of the engine. The swollen distorted profile of the inter cooler indicates to the undersigned consistency with the findings of damage to the exhaust manifolds. The damage to the inter cooler was also caused as a result of frozen liquid expanding in the closed cooling side. (See digital photo 11)
- 7) Inspection of the cylinder liners and pistons found the interior surfaces of the liners and the exterior wear surfaces of the pistons scored and galled. This finding is typical of damage caused as a result of overheating. (See digital photos 12 through 16)
- 8) Inspection of the cylinder heads found cracks through the cast iron castings in the area of the combustion chambers between the valves in both the port and starboard heads. This finding is typical of damage as caused by overheating. (See digital photos 17 through 21)
- 9) The undersigned initiated a chain of custody and retained 2 cylinder liners, 2 pistons and the inter cooler. A copy of this chain is also attached to this report. The undersigned advised Mr. Friedman to retain the remaining parts that were examined by the undersigned until further notice.
- 10) After examining the removed parts the undersigned traveled to the Lawrence Yacht Club and inspected the vessel on 9-7-07.

RE: Friedman
CLAIM NO.: 796 S 171402-0

REPORT - Page 5 of 9

11) Inspection of the vessel found it to be in overall good to fair condition.

Inspection found the starboard engine had been recently painted as typical with the parts shown to the undersigned as replaced. Inspection of the starboard engine's closed cooling heat exchanger tank mounted on the front of the engine found a weld repair on the front of the cast aluminum tank running the entire width of the tank at its bottom face surface and upward on its inboard face surface about 10". Mr. Friedman told the undersigned that Jeffstar Marine Services had performed the weld repair prior to returning the vessel to him. This operation is described in the Jeffstar Marine Services estimate #2073 dated 1-16-07 and no charges were made. (See digital photos 22 and 23)

12) No external cracks were found on the starboard engine at the time of the damage survey inspection. Both engines started and idled at the dock without any abnormal indications. (See digital photo 24)

13) On 9-11-07 the undersigned received a call from Don Rave via voice mail to please return the call.

14) On 9-12-07 the undersigned spoke with you via telephone concerning the seemingly high labor charges billed to the insured by Atlantic DDA.

15) On 9-14-07 the undersigned contacted Mr. Don Rave via telephone. I told him my opinion as to the cause of the damages to the insured's vessel. I advised him that at the moment it was my opinion the labor charged by Atlantic was higher than would normally be expected for a repair of this nature. I told him I needed more time to thoroughly examine the invoices and seek outside opinions to the fairness of the invoicing.

16) On 9-17-07 the undersigned contacted Bayside Diesel (a non DDA authorized engine rebuilder with experience in repairing similar engines) via telephone and spoke with George and questioned him as to the amount of labor hours it generally requires to perform a rebuild to a GM 692 series engine. He told me normally the rebuild requires approximately 80 to 100 hours.

RE: Friedman
CLAIM NO.: 796 S 171402-0

REPORT - Page 6 of 9

- 17) On 9-18-07 the undersigned contacted Phil at East End Diesel (a non authorized DDA rebuilder with experience in rebuilding similar engines) via telephone and questioned him as to how many hours it should require to rebuild a GM 692 series engine. He told me he generally performs the task between 90 and 120 hours.
- 18) On 10-3-07 the undersigned received via fax copies of a letter to you and Pete Padovana and the complaint filed by Mr. Rave for Mr. Friedman. You were also sent these documents.
- 19) On 10-9-07 the undersigned met with Pete Padovana, the service manager and Sean, the service technician that performed the physical engine repairs on the insured's vessel at Atlantic DDA. At the meeting we mutually reviewed the time sheets for the repairs to the starboard engine in the insured's vessel. Pete explained to the undersigned that the shops normal charge for straight time is \$132.00 per hour. Overtime charged hours are any hours worked prior to 7:00 AM or after 3:00 PM. The hourly overtime rates are billed at \$198.00 per hour. He explained they are a union shop therefore time is charged for the technicians from when they leave the shop until they return and / or cease working on that particular job ticket. This particular job required two technicians the majority of the repair due to the size and weight of the parts and engine arrangement in the vessel.

We reviewed the time tickets and found that the invoice billing for the starboard engine was 178 hours in straight time and 39.5 hours in overtime totaling 217.5 hours. Of the 217.5 hours there were approximately 84 hours in travel time leaving 133.5 hours for the actual repairs. In that time he explained was labor for cautionary labor such as checking the block for leaks and cracks due to the findings that the engine had frozen at some point in time prior to suffering a severe overheat due to lack of coolant. Sean estimated this time to be approximately 20 hours additional as would be to a normal rebuild. Also

RE: Friedman
CLAIM NO.: 796 S 171402-0

REPORT - Page 7 of 9

complications arose causing added labor time because the wrong turbo or manifolds had been sent to the insured by another unrelated vendor as they were unavailable through Atlantic DDA. Pete provided the undersigned with copies of the time sheets for the repairs to the starboard engine. Copies of these time sheets are also attached to this report.

At the time of the meeting the undersigned questioned Pete and Sean on the expected service life of the 692 engine. They told me an "average" (depending on the extent of regular maintenance) service life of that model from their experience is approximately 2,500 hours. Therefore the starboard engine in the vessel prior to the claimed loss incident was at approximately 58% of its approximate service life.

*Pete DD
replied @
5000 hrs.*

CAUSE OF DAMAGES:

It is the undersigned's opinion that the damages as found to the starboard engine were caused as a result of improper winterization by Jeffstar Marine Services. During the winter freeze period the closed cooling side of the starboard engine froze because the closed cooling side of the engine had not been protected to freezing temperatures by using the correct coolant mixture, causing cracks in the exhaust manifolds, cross over pipe, inter cooler, heat exchanger tank and other unspecified engine components. Jeffstar Marine Services attempted an improper repair to the engine and heat exchanger by welding the heat exchanger. Jeffstar Marine Services released the vessel to the insured with cracks present in the exhaust manifolds that were causing coolant to be lost from the closed side of the system while in service. The insured unknowing of the coolant leaks ran the vessel under load causing the starboard engine to overheat in turn causing catastrophic damage to the cylinder liners and pistons.

EXTENT OF DAMAGES:

It is the undersigned's opinion that the invoice from Atlantic DDA for the repairs to the starboard engine totaling \$49,629.47 is higher than would normally be

RE: Friedman
CLAIM NO.: 796 S 171402-0

REPORT - Page 8 of 9

expected but fair and reasonable in accordance with industry standards due to the information as found in found #2 and #19. Please note that additional expenses for parts incurred by the insured are as follows:

PC Industries (turbo)	1,425.00
Diesel Marine Services (manifolds)	<u>1,260.00</u>
Atlantic DDA	49,629.47 47654.48
Total:	52,314.47 50339.48

Please adjust as per your policy.

Submitted Without Prejudice,

David G. Young AMS

This survey has been prepared and submitted in good faith. It is a description of the condition as then found. Exhibit 5

CLAIM OR SUIT AGAINST YOU: If a claim is made or suit is brought against you or a Covered person for liability that may be covered under this policy, you must immediately notify us and send us every demand, notice, summons or other legal papers received by you or your representative. We will pay the ensuing cost of the suit. We will also have the option of naming attorneys to represent you. Payments for the cost of your legal defense will be in addition to payments we make under your coverage for liability claims against you.

ASSISTANCE AND COOPERATION: Any person making a claim must:

- a. cooperate with us in the investigation, settlement or defense of any claim or suit under this policy;
- b. assist us in the enforcement of any right of contribution or indemnity against any person or organization which may be liable to any covered person;
- c. allow us to inspect and appraise all damaged property, not stolen or otherwise unrecoverable, before it is repaired or disposed of;
- d. sign a written authorization permitting us to obtain medical files and other pertinent records;
- e. submit, at our expense and as often as we reasonably require, to a physical examination by physicians we select and at the time and place we select;
- f. not assume any obligation or admit any fault or liability that you or we may be liable for without first obtaining our written consent; and
- g. not incur any expenses that we may be liable for without first obtaining our written consent; the only expenses you may incur without obtaining our written consent are those covered under Part C: Medical Payments Coverage of this policy, or as described in General Provisions In The Event Of Loss in the Protection Against Loss section.

PAYMENT OF LOSS: Unless a claim has been paid by others, we will pay for any loss covered under this policy within thirty (30) days after both the detailed sworn proof-of-loss and proof of your interest in the insured property are given to us. However, should a covered loss to your insured vessel result in a total or constructive total loss, the policy premium shall be paid in full prior to the final claim payment.

OUR RIGHT TO RECOVER:

If we make a payment under this policy and the person to or for whom payment was made recovers or has the right to recover from another for the covered loss, we will be subrogated to that right; however, our right to recover is subordinate to the insured's right to be fully compensated.

SALVAGE: If we have made payment under this policy for loss or damage, and if there is salvage or recovery as a result of that loss or damage, we have the right to recover that salvage or recovery to the extent of our payment.

SUIT AGAINST US: You may not bring a suit against us unless you have complied with all terms and conditions of this policy. In addition:

- a. with respect to any claim or loss to insured property, any suit against us must commence within one (1) year of the date of loss or damage;
- b. with respect to any other claim for loss, no suit may be brought against us until the amount of the covered person's obligation to pay has been determined by final judgments after trial or by written agreement signed by you, us and the claimant; any such legal action against us must commence within one year of the date of judgment or written agreement;
- c. no one shall have any right to join us as a party to any action against a covered person;
- d. if any time limitations of this policy are prohibited or invalid under the law, then legal action against us must commence within the shortest limitation of time permitted by such law.

OTHER INSURANCE: If any covered person has any other insurance against a property damage loss covered under this policy, we will not pay for any greater proportion of the loss than our applicable amount of insurance stated on the Declarations Page bears to the total amount of insurance covering the loss. With respect to a liability, medical payments and/or uninsured boater loss, any insurance provided by this contract shall be deemed excess over all other valid and collectible insurance.
